

**IN THE ABSTRACT:**

The Applicant is unsure if the Examiner made an objection to the abstract. However, out of an abundance of caution the Applicant believes the Examiner objected to the use of the term “means” and objected to the length of the abstract. The abstract did not appear to contain the phraseology “the disclosure concerns” and the like. Therefore, Applicant submits herewith a substitute abstract that contains fewer words and eliminates the use of the word “means.” Applicant respectfully requests that the Examiner withdraw her objections to the abstract.
